
I'm New to Pro Tools + Vocal Tips

Posted by oiselle - 2008/05/08 19:13

Hello guys! This is my first post because I just got Pro Tools with my M-Box Mini but I'm sure I will comeback here often ;)

Since I'm here now, I thought I'd take this opportunity to invite you to visit my website and learn about how to find your natural dynamic speaking or singing voice and maintain it. I thought it might be useful to some of you that may sing or work with singers:

www.voiceyourselfintheclassroom.com

Since the speaking voice and the singing voice are the same, I think you might find value in it (even though it is mostly addressed to the teaching community) especially if you are into singing. If you want to subscribe to my newsletter, just send me an e-mail at voiceyourselfintheclassroom@gmail.com and I will add you to my mailing list :cheer:

This month I've decided to talk about:

- 1) Allergies
- 2) How they affect us
- 3) More vocal tips online!
- 4) What did you do or will you do today to better yourself?

Let me hear back from you!

Val
