---

Got a catalog of beats and don't know what to do with them? Check out [www.musicplacements.com](http://www.musicplacements.com) These guys will walk your beats directly into at least 5 A&Rs at major labels. G-Unit, Atlantic, Warner, Def Jam, Violator, Universal and more. They have 4 tracks on the up coming July 1st Jim Jones / Byrd Gang album. They are serious!

=====
