
Hi from Digi Australia

Posted by Brent_Sydney - 2008/08/07 03:22

Hi all,

Just dropping in to say Hello. I've been working for Digi in Australia for some time and just found these forums the other day. (sorry! I wasn't looking hard enough!)

I hope to drop in from time to time (can't promise I'll be super regular) and help out when possible.

My background is primarily in post and advertising, quick turnaround churn and burn, but I'm also a muso.

I also just started writing a tips and tricks blog (sorry, gratuitous self promotion here) the link is in my sig. Hopefully you may find something there to help with your day to day work, in addition to the great support you find here.

Chat soon!

Kind Regards,
Brent Heber
